

GIW XXXI / ISCB-Asia V

12/12 Mon - 12/14 Wed , 2022

International Conference Hall,
National Cheng Kung University, Tainan, Taiwan

Official website

The International Conference on Genome Informatics (GIW) is one of the longest running international bioinformatics conference. GIW has a rich history as a venue to present and discuss research in computational biology and computational aspects of genomics. This year the 31st GIW will be held jointly with the 5th ISCB-Asia meeting.

We are delighted to give you an in-person warm welcome to Tainan!

Keynote Speakers

Martin Steinegger

Seoul National University

Mega-scale protein structure prediction and search

Zhiping Weng

University of Massachusetts Medical School

Annotating Human and Mouse Candidate cis-Regulatory Elements in the ENCODE Project

Naomichi Matsumoto

Yokohama City University

Technological advances in NGS and bioinformatics for analysis of human genetic diseases

Michal Linial

Hebrew University of Jerusalem

TBA

Conference Co-chairs

Program Committee Co-chairs

National Cheng Kung University
Jung-Hsien Chiang

National Cheng Kung University
Paul Horton

National Cheng Kung University
Tsung-lin Liu

Waseda University
Michiaki Hamada

National Cheng Kung University
Wen-Chi Chang
